Advice That Was Worth It.

"I was once a slave to the coffee habit, and became almost a confirmed invalid by drinking it," says Mr. C. H. Aitken, of Whiting, N. J.
"I tried to break away from coffee, but every time I stopped I suffered from severs sick headaches; and for relief went back to coffee again, only in the end to suffer from extreme nervousness and severe billous attacks.
"I became so irritable that I made life miserable for my family and myself. Finally I went to New York to consult a specialist. After thoroughly questioning and examining me, he said I must give up drinking coffee, as it had greatly undermined my health, and he further said that coffee killed more people than rum. I laughed at him, but he said it was the truth, and that in his practice thating. "He said it was of no use to prescribe for me unless I gave up coffee, and recommended that I use Postum Food Coffee, which he highly recommended. He charged me \$12 for his advice, which I thought rather high-priced at the time, but to-day I think it very cheap. I bought several packages of Postum from the gfocer, and it was the best day's work I ever did for myself.
"I had a pot of Postum made for my supper that night; that was in the spring of 1886, and I have drank it ever since, with the best of results to my health. The sick headache and nervousness I suffered from drinking coffee have entirely gone; I am never billous and have increased in weight; I have a happiter disposition and am much more agreeable company to my family and friends."
